

# FREE*Styler* 2

COMPUTER-TO-SCREEN

## THE NEW FREESTYLER 2

- New Metal Body Industrial Design
- Re-engineered Y-Axis for greater precision
- New Native Support for 1 Bit TIFF Workflow
- New Inter-weaving Technology
  - Reduces banding
  - Increases Print Speeds
- New Bi-directional Printing for faster Print Modes
- Re-designed Print Utility software

Exile's FREESTyler Computer to Screen system has been completely re-engineered with a new robust Industrial design for greater reliability & precision.

New Interweaving algorithms for dot placement and Bi-directional printing support means faster print speeds and improved image quality.

# FREE YOURSELF FROM FILM WITH EXILE'S FREESTYLER 2 COMPUTER TO SCREEN SYSTEM

At last - a low cost direct-to-screen solution that prints digital images directly onto a coated screen. FREESTyler 2 produces high-quality stencils in minutes, with automatic digital image registration built in.

After imaging, the screen is ready for immediate exposure, without the need for a glass or vacuum. Pinholing & undercutting are completely eliminated so small halftone highlight dots and shadow details are accurately reproduced.

The FREESTyler 2 is powered by CADLink's SCREENMAKER RIP for imaging colour separations quickly and easily from any Mac or Windows graphics application.

It also includes a stand-alone Windows printing utility for print queue management, printer setup and maintenance (ink level monitoring, nozzle checks, head cleaning, head alignment etc).

FREESTyler 2 with MHM pin registration option pictured with the EXPOSE DTS Under-counter UV exposure unit.

## EQUIPMENT SPECIFICATIONS

Model	FREESTyler 2 Computer to Screen System
Printhead	Thermal Drop on Demand Inkjet (1-4 offset heads - software selectable)
Resolution	600x1200, 1200x1200 & 1200x2400 dpi for max screen rulings of 65lpi
Max Screen Size	40" (1050 mm) high x 26" (660 mm) wide
Max Image Size	29" (735 mm) high x 20" (508 mm) wide
Imaging Speed	FAST = 2.5 min per sq ft, NORMAL = 5 min per sq ft, HQ = 8 min per sq ft
Interface	USB (via PC Windows)
Voltage	AC 120/220V Auto sensing
Environment	40-70% relative humidity
Temperature)	50 F - 86 F (10 C - 30 C)
Weight	110 lbs (50kg)
Dimensions	48" x 40" x 16.5" (1250 mm x 1020 mm x 420 mm)

## INK SPECIFICATIONS

Ink Type	Pigment- based aqueous UV-Block Black ink
UV Blocking Capability	Enhanced UV resistance - black density in excess of 3.5 UV
Ink Characteristics	Water soluble and non-hazardous

Backing up the system is EXILE's outstanding service and support. Whether onsite or over the phone or web, our technicians will keep you printing smoothly and efficiently.
